Soft Skills

- Problem-Solving
- Teamwork
- Communication

LANGUAGE

- English
- Sinhala

PROFILE

Motivated and detail-oriented Full-Stack Developer Intern with hands-on experience in building responsive and scalable web applications. Skilled in front-end and back-end technologies including React.js, Next.js, Node.js, Express, and Java with Spring Boot. Strong foundation in MongoDB and SQL for efficient database design and management. Passionate about learning new technologies and solving complex problems. Ready to contribute to innovative software development projects and grow within a collaborative engineering team.

PERSONAL PROJECTS

Camera Shop Management System

This is a full stack MERN (MongoDB, Express.js, React, Node.js) application that simulates an online camera equipment store.

Studio Management System

Glamor Shot Studio is a full-stack Java application built with Spring Boot that streamlines photography service bookings through curated packages, real-time availability, secure user management, and an intuitive admin dashboard.

Hotel Management System

This is a full-stack Java application built with Spring Boot that streamlines hotel management operations, including room bookings, customer management, real-time availability, and a comprehensive admin dashboard for staff and reservation control.
